STARLINES TESTIMONIALS

Joe Gallenberger, and his wife Elena:

Last week Elena and I attended Monroe Institute's Starlines program. I am knowledgeable about TMI programs, having been a facilitator there for over 20 years, and from this perspective I can say. Wow! Starlines is an amazing program for expanding experiential awareness of the vast physical universe as well as the vastness of one's consciousness. It occurs mostly in the highest focus levels available at the Institute and Focus 49 in particular has Hemi-Sync signals that really were revelatory. I feel that being exposed to Starlines will deepen my PK, healing, and manifesting abilities, given that for this work we pull in the highest energies we can to empower these creations. 5-star recommendation!

Zana Paradise:

Yes, I would love to write comment and I know now deep in my heart to be a Stargate isn't easy journey but it can be achieved if we put TRUST and FAITH in our celestial friends or God!

Now I know I have the heart and souls of a true Stargate.

I don't know where i would have been if i didn't follow this journey. But honest i love anything to do with psychic field it's my hoby! I talk every time with St. Michael Uriel Gabriel and Raphael.

As far as Starline1 have helped me are you ready?... I doubled my income just after I came back from Starline1 program, my husband got a big will free home paid 55 years ago and more then half million dollar in cash!:) It is all true.

Starline have teaches me only wonders and how everything is operating!

It's winderf experience just by looking at as a big picture our galaxy can be itself portal to Stargate! OMG I love this you have no idea!:)

Mitch

For me, Starlines opened up deeper aspects of my own awareness and knowledge of myself, first through the experience of the higher Focus Levels, and second through the wonderful guided tools built into the exercises. The most moving experience of the week came with a past life experience as a sojourner on a different world, that led me to profoundly remember why I love being a part of the Earth experience – memories and feelings that have stayed with me to this day.

Mas Sakamoto, Japan:

The Starlines programs are so popular in Japan that we have conducted six Starlines and four Starlines II in Japanese, so far. Every year we have a SL and a SLII.

A significant number of people enroll in Gateways simply because they want to eventually attend Starlines. Many participants repeat both SL and SLII.

There are so many reasons for the popularity:

1. a lot of people simply want to experience high focus states (F42, F49, F49+, Stargate).
2. some people want to know their origins, where they came from...more about their I-There and I-There Cluster.
3. some want to experience a larger perspective and/or oneness.
4. some want to meet higher level beings, ETs and their Cluster Council.

Many participants ask, "When will we have Starlines III?".

Vic

Starlines remains on of my all-time favorite courses at TMI. We explored both the inner and outer worlds, and my experiences helped set the stage for my continuing contact with extra-terrestrials. Thank you, thank you, thank you.

Andrea

Starlines is the reason I came to TMI. The idea of being a “galactic ambassador” felt very appealing to me and also very familiar. I called TMI to register, but found out that there were a few prerequisites, including Gateway Voyage, which I attended in

September 2003, with you, Franceen and Joe Gallenberger as my facilitators. My desire to attend Starlines only strengthened after Gateway, Lifeline and X27, and I finally was able to attend Starlines in October 2005 - a magical week of deep spiritual awakening and transformation, during which we 'traveled' all over our Galaxy and explored Focus 42-49. It was a true homecoming - meeting many parts of my Higher Self from other (non-Earth) energy systems and learning first-hand the true meaning of Cosmic Consciousness. Since Starlines, I intentionally try to 'bring in' and manifest in this physical reality, the energies and consciousness of F42-49. My life has shifted in some wonderful new directions.

Starlines and Starlines II remain my favorite TMI programs.

P.S. The attached document was published from the 2006 Summer/Fall FOCUS Magazine contains more detailed impressions from this program.

Susan Taylor

I'm not sure how to do Starlines justice in mere words, but here's an attempt.

I recently attended Starlines after a twelve-year absence from The Monroe Institute. It was an amazing magical experience. Even after all those years it was easy to reset the Focus levels up to 34/35 that I had previously experienced and move on to F42 and F49. Franceen King was a master at facilitating our group in exploring the vast non-physical universe and in reclaiming various aspects of ourselves. I've enjoyed all of the programs I've taken at TMI, but this is now undoubtedly my favorite. I look forward, with great anticipation, to attending Starlines II in the future.
